

YAHOO!

Carbon Offsets at Yahoo!

-
- Yahoo! going carbon neutral this year
 - Offsetting 250,000 metric tonnes against our 2006 footprint

Our Footprint

- Facilities (data centers and offices)
- Employee commuting
- Air travel

Yahoo's Carbon Offset Purchase

- In areas where Yahoo has a presence
- Linked to projects that encourage the development of clean power/alternative energy
- Tied back to community empowerment initiatives

-
- Wind Turbines in India (Cantor CO2e)
 - Small Scale, Run-of-River hydroelectric in Brazil (EcoSecurities)
 - All VERs; both projects queued up to become CERs

-
- Reviewed 100 projects before settling on the ones we chose
 - Assistance from ICF International in review & selection
